Extensive Fire and Serious Loss.

A very large and destructive fire occurred this mornng, destroying the large factory, the property of Mr Frussler, known as the "Essex Print Works," situated in ssex county, about two miles from this place. The fireke out about 1 o'clock, and spread with such rapidi-ty, that the machinery and contents of the building were entirely consumed. Loss estimated at from \$50 to \$60, 000. Fully insured. This makes the third and last factory in Rahway which has been destroyed by fire within the past year.

From the Albany Argus, Nov. 7.

Election Results.

Senate.—The result as yet is somewhat doubtful in the 4th and 7th Districts. The probabilities are that the democratic candidates, Messrs. Young and Williams, are elected, and that Mr. Walworth in the 5th, is defeated. If so, the democrats will elect five, and the whigs three, of the new sensors, and the next Senate will stand 24 democrats and 8 whigs.

The House.—The returns show the election of 67 democrats, 40 whigs, and 1 irregular. To these we may add probably Oswego 2, Cayuga 1, Sullivan 1, and possibly Broome 1, Cattaraugus 2, and Otsego 3. The 67 democratic members already ascertained, are two beyond a majority.

a majority.

The House will be decidedly democratic. The majority will exceed that of last year. It was then six.

COMMERCIAL.

New York, Friday, Nov. 7.

Ashes.—Sales of Pots were made to-day at \$3.87½, and Pearls at \$4.12½.

Breadstuffs.—The market for flour is at present quite moderate, and prices have settled at \$6.12½ for Genesee, at which rate some sales were made this morning. During the month of October, there were 30.000 barrieds of flour shipped from this port to Liverpool alone, and at least one million bushels of wheat, to the same port.

Cotton.—The sales to-day reach 1.200 bales at our initide quotations: of the purchases, about 500 bales were taken by shippers.

New Orleans Marrets, October 30.—The business done in cotton yesterday, which amounted to 4,000 bales, was at a decline of \$\frac{1}{2}\$c on the rates paid before the news by the Hibernia, and even at this reduction buyers do not seem over anxious to operate. We perceive that some offers have been made this morning, but as yet they have not resulted in any transactions. Middling cotton may be quoted at 7c, and really good middling, at 7c. Fully fair was bought at 8c.

Sugar was in fair demand yesterday, with sales of 200 hds at 5\frac{1}{2}\$ ac cents; molasses has receded to 26 a 26\frac{1}{2}\$ cents per gallon.

cents per gallon.

The sales of flour yesterday were confined to consumer's wants; the range of prices is from 4.73 to 5.26 for all qualities. There was nothing done yesterday in provisions.

The William Gray is in from Rio de Janerio this morning, with 5000 bags of coffee, and the Oceanus from Mslaga, with a cargo of wine and fruit.

Family Provision Market. Family Provision Market.

The different markets already exhibit the fall and winter supply of good things in great abundance. Vegetables of all kinds (potatoes excepted) were never more plenty. Butter still continues high, of first quality, but a vast quantity is yet to come to market. Good sound potatoes bring 5a. a 6s. per bushel. Game continues plenty, and there is also a full supply of fish of every variety.

Flour Markets.

Albany, Nov. 6.—The receipts of flour, owing to a sunken boat in the canal near Amsterdam, are light, and holders of Genesee are firm at \$6; store sales and Eastern orders \$6:121 Two loads wheat sold at 128;c. Rye is better—sales 75 a 75c.

Burprato, Nov. 5.—There was no disposition to operate yesterday, in either flour or grain. Holders are not disposed to go below \$4:41 for flour, and purchasers will not come up to that, within 6;c. Sales of 650 bbls Michigan, of different brands, were made, however, at \$4:41, and some round hoop Ohio, and 150 bbls. Indiana, were taken at \$4:37; In wheat, we heard of nothing deing. Previsions remain about the same, except beef, which the large accumulating stock has sent downward, somewhat. Erie and Chatauque county cheese sells at \$c. and butter at 13 a 14c. Salt for export, is taken pretty freely at \$1:19. Fork is rather heavy at \$13:50 for mess, and \$8:50 for prime.

Philadelphia Cattle Market.

Nov. 6.—At Market—1.200 head of Beef Cattle, consisting of 140 Virginia, 400 Ohio, am, the remainder from our own State, including 220 taken to New York; 220 Cows and Calves; 500 Swine, and 200 Sheep.

Prices—Beeves dull at \$3.75 a \$5.00 the 100 lbs; 200 head unsold. Cows and Calves brought \$15 a \$32.—Swine sell at \$4.75 a \$5.00 the 100 lbs. Sheep, mostly sold at \$1 a \$3 exp. sold at \$1 a \$3 each.

Hay — The market steady with sales of good Timothy at 95 a 105c. the cwt., and Straw at \$6 a \$7 the 100 bun-

Foreign Markets.

Havana, October 23.—The schooner Dover arrived on the 19th, with a cargo of rice, which was sold at 16½ rs At Matanzas the Zephyr's cargo changed hands at 10½ rs which price the holder had previously refused to accept if there is no sensible increase of supplies, we expect that the present favorable price will be sustained, but should it be otherwise, we must be prepared to see the rates go down. The stock in dealers' possession is moderate. Molasses 2½ rs. here, looking downwards. Sugars have declined, brown and yellow, Sa 10; whites, it a 14. The cargo of the Zephyr at Matanzas was sold at 15½; a cargo of jerked beef brought 17½; last sales of sugar for half and half assorted, 5½ a 5½ to 12½; yellows 8½; a lot of molasses sold at 3 rs.

Exchange on New York 2½ per cent premium; London 11 a 1½ per cent premium.

St. John's, P. R., 7th Oct.—Sugars—Owing to the entire absence of all supplies of this staple, quotations are of course nominal. The last sales were made at \$3½ and \$4, at which rate there were plenty of buyers. Very little honey left, last sales at \$13. Coffee, no demand. Hides are in some demand, but would move more freely rive. Rum, \$27 per had. No American vessels from the peninsula, now due, should arrive. Rum, \$27 per had. No American vessels here have made large crops this year, and the people are do.

Montego Bay, Jamsica, Sept. 23.—All the estates here have made large crops this year, and the people are doing well. Merchants are obliged to charter vessels to take home their produce. The next year's creps, we hope, will be better. Some estates this year made 160 hnds, where last year they made 60.

ALOPECY.

ALOPECY,

R falling off of the Hair and Pityriasis, or Dandruff, Scurf, &C., are positively cared by the use of Hill's Infallible Onguent, which is an old and well tried specific for all diseases of the hair or scalp of the head. It is a certain preventive of grey or red hair, or if they do exit, a thorough use of the Onguent will change the color; it will make the hair flexible, inclined to curl, keep it mobil longer, and give it a glossier appearance than any other preparation now in use, in which assertion I am fully sustained by the numerous certificates in my possession, a few of which are annexed. Sold wholesale and retail, No. 13 Nassau street.

To Mr. Wm. Hill.

Dear Sir.—A short time since my hair became dry, exceedingly harsh, and finally commenced falling out, which increased to such an alarming extent that it became quite thin, and what remained appeared perfectly lifeless; indeed I was fearful of losing all of it. At last, through your persuasion, I was induced to try your Infallible Onguent, which I am happy to say in a short time canned my hair to entirely cease falling off, sassume a moist, soft and glossy nature, and I may add that different members of my family (especially the female portion) have used the Ouguent for like parposes with like success.

Yours respectfully,

Proprietor of City Hotel.

New York, May 6, 1844.

I do certify that I have been seriously afflicted with dandruff and falling off of my hair for more than five years, and have made use of several articles said to be sure remedies for the same, and found so benefit arising from them, but quite the reverse inhally, at the request of Mr. Hill I was induced to try his Infallible Onguent, and the result has been highly actisfactory in removing the sandruff, staying the hair, and canning it to grow, and I would recommend any one afflicted with the above to make use of the Onguent, being perfectly estained they will reap great benefit from the same.

A Sthe touch of earth restored vigor, activity and confidence to the exhanited arteries, so with that glorious preparation LUCINA CORDIAL, relayed the generative organs, however weakened, with their original power. There is not a shadow of a doubt that this is true, and were not the subject of too delience a nature, hundred would teatily to the unrivalled efficacy of this Cordial as a specific for barrenness, fluor albus, glocita irregularities in the secretious, pains in the kin news, female suppressions, to the reverse) prolysus uteri, and infact almost every disease to which the most delicate portion of the human organization is liable. It cannot indeed, cure malfornation of the parts, but for any thing short of that it is offered as an infallible cure for barrenness, while in all the other disease as enumerated above, whether acute or chronic, it will be found a safe and sovereign ren-edy. The Lucina Cordial is a genite tonic, operating generally upon these cretive organs and bracing the whole system without so far stimulating any function as to produce subsequent relaxation. On the contrary, it seems to act in perfect harmony with nature, and does not create a temporary vigor, but a permanent renewal of the natural energies. The first bottle used will fully convince the purchaser of the trait of all we have asserted.

MAGNETIC REPELLANT.

Def London and Edinburgh, and of the principal Colleges of the United States, and for several years assistant to the late Sir Astley Cooper, can be confidentially consulted at his private offices, No. 15 Chambers street, New York, upon all diseases of a delicate nature—to the treatment of which he has confined his practice for the last 17 years.

Syphilis, Gonorrhoss and Gleets, whether recent or of long standing, cured in a few days, without the use of mercury or copaiva, or no charge made.

Stricture, which, of all diseases, is the most insidious, often commencing and stealthily advancing where its existence is not even dream of, producing the most Immetable effects upon the mind and nervous system of the patient. Some of the most prominent symptoms are prostration of the natural energies, aversion to society, and the involuntary escape of a few drops of water, after adjusting the clothes, subsequent to voiding urine. Hundreds of cases have been successfully treated upon my newly discovered system of Magnetic Repulsion, thus avoiding the intolerable pain and great danger attendant apon the rash introduction of matruments.

Self Pollution is a morbid habit, often arising with the inexperienced, and when once contracted, most difficult to overcome—producing in many instances, idiocy, loss of memory, pains in the back and loins, nocturnal emissions, impotency and sterility; the sufferer is speedily enabled, under my treatment, its subdue this permicnous practice, and the system is restored to its pristine vigor, by the use of the Electro-Magnetic Balm.

THE greatest medicine is the world, for the cure of Colds, Coughs, Consumption, and all Bronchest, Pulmonary, Fleuritie and Dyspeptic Affections. Of all the remedies now known, there is but one that can be relied on for the cure of that "terror of the human race," Consumption—that remedy is Schenck's Fulmonic Syrup. It has succeeded in cases where every thing else has failed, and it will generally succeed in curing every case of Consumption, where the following things are attended to, viz.—A fair trail, perseverance, and a strict conformity to the directions. It may not be amiss to state the reason of the great success of the Pulmonic Syruptit is the most powerful purifier of the system known—it operates by assisting nature to expel the disease from the lungs, stomach, and iver, where there is heetac, fever, night sweats, constipation, all usual symptoms of Consomption. The use of the Syrup removes the fever, st-ps the night sweats, and requisites the action of the bewels, making them healthy and natural; it soothes and ripens the disease of the lungs, and then expels it in the form of expectorated matter, and its truly atonishing what quantities of corruption are expectorated by the patients generally, who have taken the Fulmonic Syrup, and this continues until all disease of the lungs is removed, and the patients generally, who have taken the Fulmonic Syrup, and this continues until all disease of the lungs is removed, and the patient finds to his joy that he is restored to health.

The genuine Fulmonic Syrup can be had at the proprietor's office, No. 4 Couri land street, a few doors west of Brondway, Please notice that P. S. BEEKMAN is no longer agent for the genuine Scheack's Pulmonic Syrup.
